SUMMARY

Detail-oriented front-end developer passionate about creating exceptional user experiences through clean and maintainable code. Skilled in developing responsive web applications using HTML, CSS, and JavaScript, with expertise in frameworks like React and Angular. Strong understanding of UI/UX principles and a proven track record of problem-solving to deliver optimal performance and usability.

KEY SKILLS AND TOOLS

- Develop cross-browser compatible websites using various front-end frameworks & Restful API, while ensuring bug-free code & version control with Git, optimising web performance, conducting UI design, & performing web testing
- Programming Languages: JavaScript | Java | C++ | Kotlin | React Native
- Utilized various frameworks including React, Express, Angular, & Tailwind CSS for web development
- Demonstrated proficiency in analytical skills, effectively collaborating with others to lead & adapt to various situations

WORK EXPERIENCE

Intellipaat | Bengaluru

Aug '23 - Present

Technical Research Analyst- Intern

- Produced & delivered concise video tutorials focusing on **Java programming within web development**
- Recorded and edited 30 hours of Java course content for Intellipaat's Learning Management System (LMS), ensuring high-quality and engaging educational material
- Designed and developed 10 MERN (MongoDB, Express.js, React.js, Node.js) stack projects, showcasing proficiency in full-stack web development
- Collaborated with a team of subject matter experts, instructional designers, and content creators to deliver effective and learner-friendly course material

PROJECTS

Admin Dashboard Bangalore

Developing an admin dashboard with data visualisation using Chart.js, Tailwind CSS, and Express.js

- **Data Visualization:** The admin dashboard provides interactive charts to visualize data from a JSON file
- **JSON Data Integration:** The project integrates a JSON file containing relevant data. The dashboard reads the data from the JSON file and dynamically generates charts based on the information provided
- **Responsive Design:** The dashboard is designed to be responsive and compatible with different screen sizes. The use of Tailwind CSS ensures a mobile-friendly and visually appealing layout

Contact Management App Punjab

Developed a contact management application which can sync contacts saved in the mobile using React Native

- **Integrate the app with the device's native contact book**, allowing users to import and sync their existing contacts effortlessly.
- Develop a **cross-platform** contact management mobile application using React Native framework. The app will allow users to efficiently organize and manage their contacts, providing features such as search functionality.

EDUCATION

Lovely Professional University | Punjab

Aug '20 - Aug '24

Bachelor of Technology (B.Tech) Computer Engineering

- CGPA: 8.09
